Subject: Certification of US made InsertValves

Dear Buyer,

We are pleased to provide you the certification requirement of Team's InsertValve for The Consolidated Appropriations Act of 2014 includes an "American Iron and Steel (AIS)" requirement that requires Clean Water State Revolving Fund (CWSRF) and Drinking Water State Revolving Fund (DWSRF) assistance recipients to use iron and steel products that are produced in the United States for projects for the construction, alteration, maintenance, or repair of a public water system or treatment works if the project is funded through an assistance agreement executed beginning January 17, 2014

Herein Team Industrial Services certifies that our InsertValve manufactured to the claims within patent numbers 6,776,184 and 7,225,827 are manufactured and assembled in the United States. All manufacturing processes for these steel and iron materials including the application of coating have occurred in the United States.

We certainly appreciate your desire to procure quality InsertValves that meets your specifications and are made in the United States. Let me know if you need any other information.

Thank you for your business.

Sincerely,

Brett D Hanes
InsertValve Manager
